

## **Continental Computer Corporation Website Press Releases**

July 5, 2002

Continental Computer Corporation announced today the formation of Continental Utility Solutions, Inc. (CUSi) and the addition of Michael F. Guerriero as President and CEO of CUSi.

"The growth of the Utility Division mandates that we establish CUSi with its own identity and leadership." says Michael Guerriero. "CUSi will build upon the reliable technology products and services we provide the Utility market today with the same team of people who have achieved the highest level of customer service in the industry."

CUSi services over 500 water, natural gas, power and waste management utilities in the US, Central America and the Caribbean with Utility Billing and Customer Relationship Management software, technology products and services.

February 1, 2003

Continental Utility Solutions, Inc. (CUSi) announced today the release of a new Accounting Interface Module for The Continental Billing Systems for Windows® Utility management product.

The interface module will allow our clients to seamlessly connect their billing application with their accounting application. This solution will dramatically improve efficiencies in both the Utility's Customer Service and the Accounting Departments. The module is also designed with an open architecture to allow it to interface with almost any accounting system. To date CUSi has interfaced with Quick Books Pro. MIP, Intuit Fundware, Great Plains, and Peachtree.

January 8, 2003

Continental Utility Solutions, Inc. (CUSi) announced today it has entered into a Strategic Marketing Agreement with Intuit Public Sector Solutions Division Inc. (IPSS). Under the Agreement CUSi will market IPSS's products and services to its utility clients throughout the US, Central America and the Caribbean.

"IPSS products and services are some of the strongest in the market today" says CUSi's President Michael Guerriero "We believe the combination of CUSi's Customer Management and Utility Billing solutions with IPSS's Accounting

solutions will provide our clients with the best tools available to maximize efficiency and manage bottom line costs".
