Continental Utility Solutions, Inc. Completes Successful Implementation of Sage Software Business Applications for The City of Russellville, Arkansas

Sage MIP Fund Accounting and Sage Abra HRMS provide Russellville with an integrated, end-to-end software system to better manage data across multiple departments.

Jonesboro, AR - July 12, 2007 - Continental Utility Solutions, Inc. (CUSI) a leading provider of business software applications for the public sector, announced today that the City of Russellville, Arkansas has gone live with Sage Software's integrated Accounting and Human Resource Management Software (HRMS) solutions. After an extensive evaluation, Russellville recently selected CUSI to install and implement Sage MIP Fund Accounting and Sage Abra HRMS.

Jeanette Small, Director of Finance for The City of Russellville, states, "We are extremely pleased with our selection of Sage MIP Fund Accounting and Sage Abra HRMS. Both offer outstanding functionality and versatility to streamline our operational processes, reduce data entry time, and provide a tremendous amount of reporting detail." She adds, "We are equally pleased with our selection of CUSI as our implementation and technology partner. I couldn't have asked for a smoother transition from our old system and the professional training they provided had us up and running in no time."

Sage MIP Fund Accounting is a complete financial management solution designed exclusively for nonprofit organizations. Sage Abra HRMS is a comprehensive human resource management system that provides payroll processing and recruiting, as well as training and benefits administration. Together, these integrated software applications replaced a legacy accounting system for The City of Russellville and provide the foundation for improved operational efficiency and better management of data across multiple departments.

According to Michael Guerriero, President of CUSI, "Our ongoing dedication to client satisfaction and expertise in the public sector enabled us to provide a full range of implementation services including data conversion, training, programming, and consulting to ensure a smooth transition for the City. Our commitment to ongoing support as a business and technology partner will ensure that Russellville will continue to leverage their investment in technology to its fullest for many years to come."

About Continental Utility Solutions, Inc. (CUSI) CUSI delivers Utility Billing, Accounting and Operational Software worldwide. Today, over nine hundred public sector clients use CUSI's Windows, SQL and .Net applications to meet their technology needs. For over twenty years, CUSI has developed and implemented total technology solutions for the management of utilities and local governments. For more information visit CUSI on the web at www.cusi.com.

About The City of Russellville, Arkansas With over 28,000 residents, the City of Russellville is in a prime location for businesses and manufacturing. Located on the banks of the Arkansas River and on US Interstate 40 halfway between two of Arkansas's larger metropolitan areas, Little Rock and Fort Smith; and with river, interstate and railway access to our city, there are endless possibilities for existing and new industry within our area. The City of Russellville has eleven departments and 175 employees striving to continually enhance the quality of life for our residents. We are in a convenient location with access to large town amenities, while still maintaining the charm and personalism of a small town.
